

REGISTER FOR VISITORS HIGH IN THE TOWER

There is now no excuse for any one to mutilate the walls and casings of the tower in the city and county building by inscribing their names with pen, pencil, paint or jack knife. The custodian of the building, C. V. Anderson, has secured a large register, which will serve the egotistical purposes of all visitors to leave their mark behind them. The register is a large book, in which visitors may place their signatures, with date of visit and place of residence.

A visit to the tower of the joint building is one of the principal features of a visit to Zion. There are many people living in the city who have no idea of the great height of this tower or the immensity of the view that can be obtained from his commanding position. When in the top of the tower the observer is on a level with Fort Douglas, far out on the east hills. A good view is obtained of the Great Salt Lake to the west and the Saltair pavilion can be readily distinguished on the shore of the lake if the day be at all clear. The observer is apparently on a level with the top of Anderson's tower on the bench north of the city and can see to the west and the Saltair pavilion can be readily distinguished on the shore of the lake if the day be at all clear.

DOWN TO A FINE POINT.

Board of Public Works Discusses the Putting in of One Yard of Concrete.

The small sum of \$9.78, the cost of laying a cubic yard of concrete, was the principal matter discussed by the members of the Board of Public Works yesterday at their meeting. The concrete appears to have been put down in Commercial street some time last fall by P. J. Moran, when he resurfaced that street. Earlier in the year the city had refilled a trench made in the street by the Bell Telephone company, and placed concrete over the same. When Mr. Moran's crew were resurfacing the street they found a small portion of the concrete damaged, and put in a new foundation for the asphalt covering. The Bell Telephone company paid for both jobs to the city and Moran received his pay. The question before the board was whether or not a refund should be made to the telephone people. Neither Mr. Kelsey, Mr. Moran nor the city inspectors could definitely state whether the concrete was ever put in. Mr. Moran said Mr. Moran had received payment for the work, and that the estimate for the same had never been approved by the Mayor or City Auditor. Mr. Kelsey finally moved that a recommendation be made to the City Council to make a refund of \$9.78 to the Bell company. The motion carried, Chairman Clawson being the only member voting against it.

New York. Every house in the city is readily distinguished and one's vision is only blocked by the ranges of mountains encircling Salt Lake valley.

Thousands and thousands of tourists climb the stairs to the tower each year, and the great majority do not resist the inborn desire to write their names on the window casings or elsewhere. The manner in which the several floors are disfigured in this way is something disgraceful, and obnoxious to the eye of a certain class of visitors. These people deplore the rude disfigurements and the lavish extravagance displayed in some of the hieroglyphics is simply shocking. It may also be stated that the felicity of the visits of many of these tourists is marred by the unkempt condition of the city's side of the tower. There are none, in fact, who fail to note that the south half of the tower is painted and kept in repair, while the north side has a dilapidated appearance, the windows and door casings having never been painted. None fail to comment on the unusual fact that only half of the tower is painted and the dividing line on every floor between the city and county side excites their curiosity.

With the register prepared and kept by Mr. Anderson, there is now no excuse for visitors placing their "John Henry's" in the tower. The custodian has had the register but four days and the names already written therein show visitors from six different States of the Union. The city, too, has no excuse for not painting its side of the tower.

MINER'S PLAIN

IDAHO MAN ALLEGES THAT HE WAS BEATEN AND ROBBED.

(TRIBUNE SPECIAL)

Weiser, Ida., Jan. 30.—James Morrissey, a miner who has been employed by the Ladd Metals company at Mineral, in this county, arrived in the city yesterday evening. He immediately hunted up County Attorney Khea and caused complaints to be issued against Ben Wain and Frank Turner, charging them with having assaulted and robbed him at Mineral last Sunday night.

Morrissey claims he was knocked down, beaten and robbed of \$37. He states that he was followed by the two men, and when near his home was struck with some hard instrument and his money taken from him. Morrissey shows the effects of the beating he received. Wain was captured at Shoshone, and will be brought back here in the morning. Officers are searching for Turner, who has not yet been captured. Both Turner and Wain are connected with good families.

POULTRY SHOW ENDED

Best Exhibition of Chickens Ever Given in Utah.

Utah's Poultry show closed yesterday, after having had a greater success than ever before. The exhibits were larger, the poultry in better shape and the interest displayed by the public was very gratifying. Most of the coops were removed yesterday, but a few were left awaiting purchasers. A meeting of the Poultry association elected the following officers: President, A. H. Vogeler; first vice-president, J. W. Bird; second vice-president, D. S. Murdoch; secretary, R. M. Moreton; assistant secretary, J. F. Fanning; treasurer, Thomas B. Seddon.

Anthony Soyka, president, and Oliver H. Borg, secretary of the Sevier County Poultry association, were at the show soliciting coops for exhibition at Richfield in the Nampa house on the 18th, 19th and 20th of February. They were meeting with good success and the show will probably draw many poultry fanciers.

The list of awards given out by the secretary is as follows:
